

Stockholm, May 15th 2017

Dear Professor Clarke.

The Nobel Museum is pleased to accept your gift to its collections. We are happy and thankful that you thought of us and did send the two rubber stamps, the attaché case and the Ph.D. theses that originally belonged to Paul Boyer to Stockholm.

The Nobel Museum conveys an active and reflective memory of the Nobel Laureates and their achievements, as well as of the Nobel Prize and Alfred Nobel. Using modern technique, elegant design and a creative educational outreach, the Nobel Museum communicates the message of innovation, science and culture, inspiring and promoting dialogue in Sweden and the world. The collections of the Nobel Museum are used for both exhibition and research purposes. Your generous gift contributes greatly to supporting our objectives. Thank you!

Sincerely,

Olov Amelin

Museum Director
